

Dear FCC,

I have been informed of your proposal to expand the LPFM stations in a way that would take priority over current FM translator service. I am not in agreement with this because it affects me and my family personally. My husband, myself and my children all listen to KLOVE together whenever we are home or in the car. It is one of the very few stations that we listen to because most other FM stations are offensive and not family friendly. Not only do we listen to KLOVE for uplifting music but it is also our source of news. All of friends also listen to KLOVE because it has a family friendly format. As a KLOVE listener and financial supporter, I am against your proposal to force FM translators off the air. As a tax paying citizen, I implor you to stop persuing this or any other ideas of putting KLOVE off the air.

Deborah J. Castillo
